

Sparkle Pros Cleaning Service Can Take Over From Here...

By:
Kandyce L. Goss

As we all know, there are just some things that we deal with on a day to day basis that will never change - such as "cleanliness." Having a clean home or office will never go out of style nor will it go unnoticed.

A homeowner will continue to clean and polish things up a bit for their own peace of mind

or for lack of embarrassment when they have visitors. As for business owners, customers will continue to use the cleanliness of a work place as a determining factor in whether to patronize a business. It's that simple!

Sparkle Pros Cleaning Service understands that cleaning takes time and commitment; we are willing to cater to our customer's cleaning needs. Each cleaning consultant takes the time to determine each customer's needs and develops a cleaning strategy just for you and / or your business. Whether it's your home or small business we will assure dependability and that you receive sparkle treatment.

What is Sparkle Treatment?

It's simply a great cleaning service done with integrity, honesty and a smile.

Should I have my home professionally cleaned?

Why yes! Many customers enjoy being able to come home after a hectic day at work into a sparkling home. Depending on a customer's needs, we take care of maintaining your home floors, dusting and we even do the windows! Imagine that!

Does my business need a professional cleaning service?

Of course the answer is yes! We encourage companies like yourself to handle the core of your business while we make your image sparkle. Let Sparkle Pros manage your offices cleanliness. Don't worry about dusting, maintaining the floors, emptying the trash, or cleaning the windows - we'll handle it! We understand that you are in a competitive world of business, so let us comple-

ment what your company stands for.

Our products!

We use effective cleaning products that get the job done. If for any reason special products need to be used, we can provide choice products through our vendor.

Who is Kandyce L. Goss?

I am a single mother of two children and know that sometimes we truly need a break or have someone else take over

for us. Sparkle Pros is a service that exceeds in taking over and carrying the load. Being the president of Sparkle Pros means a great deal to me because I am focused on making sure the needs of others are met. I believe it is imperative that my clients reap the benefits of using a professional cleaning service. Need the sparkle treatment? It's my pleasure!

Call me today at (314)603-3650 to arrange your sparkle treatment for your home or business.

Pure - Simple - Cleaning Power with Olde Maids, Inc.

By:
Marsha Hartley
and Nancy Boutin

Since WWI more than 80,000 synthetic chemicals have been invented. Most of them have been created from petroleum and coal tar for the purpose of chemical warfare.

The first agent of chemical warfare was chlorine. It is in most store-brand cleaners, including dishwasher deter-

gents. The harmful effects are intensified when the fumes are heated.

According to the Greenpeace Report of 1993 entitled Chlorine, Human Health, and the Environment: The Breast Cancer Warning, "An emerging body of evidence suggests that contamination of the environment with chlorine-based synthetic chemicals may be an important factor in the epidemic of breast cancer taking place in the world."

Good Health is About Choices

The air we breathe, the water we drink and the food we feed our families are all choices. OLDE MAIDS, INC. cleaning products were created for better health - better health for ourselves and our environment. We do have a choice about the way we live. When your home smells fresh and clean is it really? Are

you absorbing toxic fumes into your lungs and through your skin? You are what you eat, digest and absorb. Make better choices! Our non-toxic products are a safer alternative.

You can begin to create an environmentally safe lifestyle with OLDE MAIDS, INC cleaning products. Our products are not petroleum based. We use a combination of essential oils and basic cooking ingredients to create our 'age~olde' time proven remedies.

Most of our products have more than one use. Our Silk Scrub is a sink, toilet, tub and tile cleaner. It also doubles as a silver jewelry polish and a stain remover. It can also make your porcelain shine while always leaving your hands softer than ever. Our Furniture Bark will not only help to restore your dry wood floors or furniture, it will also help to remove that nasty soap scum from your glass

shower doors. Did you know that there would be fewer poisoned children and much less air, land and water pollution if people stopped buying commercial furniture polish?

We know that life goes along at whatever pace you let it and that progress can be a good thing. We know because we have lived it...cleaning your home does not have to be toxic.

A Few Pointers from the Olde Maids

Let the Fresh Air In.

Open your windows year round when you clean! Line dry your clothes, especially your sheets. Sunshine is the best thing you can do for your sheets. Shake out your scatter rugs and let them hang on your clothes line. Put your pillows on your deck.

Change your vacuum bag often.

Soap scum should not disappear with just a simple spray. If something is eating away at your grease spatters, it is eating away at something else - either inside you, beside you or on you. Stay away from oven cleaners, air fresheners and disinfectants.

The Consumer Product Safety Commission on Chemicals Commonly Found in Homes identified 150 chemicals linked to allergies, birth defects, cancer, and psychological abnormalities: 10% of these cause high blood pressure and migraines and 20% are responsible for mental disturbances.
